

CHAPTER 7: CONCLUSIONS AS TO THE CONDITIONS DEFINED IN THE ACT

159. As is shown by the table in paragraph 31, in 1950 the members of the Federation of Calico Printers printed over 98 per cent. of the total yardage of cloth printed in the United Kingdom by the referred process. We have no reason to assume that there has been any substantial change in this proportion since that year. From what we say in Chapter 4 it is clear that these members so conduct their affairs as to restrict competition in connection with the referred process and we conclude that the conditions to which the Act applies prevail as respects the application of this process.

160. C.P.A. is a group of inter-connected bodies corporate as defined in Section 20 (2) of the Act. In 1950 C.P.A. printed over 48 per cent of the total yardage of cloth printed in the United Kingdom by the referred process (see paragraph 31) and we have no reason to assume that there has been any substantial change in this proportion since that year. On these grounds also we conclude that the conditions to which the Act applies prevail as respects the application of the referred process.
