

APPENDIX 2.2
(referred to in paragraphs 2.102 and 5.39)

**Proposed undertakings to Strathclyde Passenger
Transport Authority**

SPTA submitted that, as a condition of approving the acquisition of SBH, FirstBus should be required to give certain undertakings. We asked FirstBus for its view on whether it should be required to:

- adhere in principle to SPTA's principles regarding levels of service and fares with consultation prior to any significant changes;
- participate in all multi-modal multi-journey ticket initiatives promoted by SPTA; and
- maintain in general the present network of FirstBus services within the SPTA area.

Such assurances should apply for a significant future period, say ten years, and be binding on any successor management.

SPTA said that FirstBus had already expressed its willingness to abide by these and other conditions (see paragraph 6.15).
